Basecamp Explorer Foundation is a non-profit organization working with local communities to safeguard nature. Basecamp Explorer Foundation is part of the Basecamp Explorer Group, operating through sustainable tourism. Basecamp Explorer Foundation helps with strategic fundraising for the relevant projects in the regions where we run our tourism business. We always seek a broader approach that also invites our guests, partners in tourism and institutions to join in. Our vision is to demonstrate how to conserve key global ecosystems through co-existence between wildlife and humans.

When we began our operations 20 years ago, we made a decision that all our projects should lead to sustainable development. Today we empower the local Maasai women in Masai Mara to support their households and send their children to school. We promote conservation of the world's most important wildlife area, the Masai Mara-Serengeti ecosystem. We have planted countless trees to help establish an actual forest biome in the Talek region, simultaneously making our operation carbon positive. From all our donations 90% is used directly to activities supporting our projects and only 10% is used for administration fees.

**We thank you for your contribution.
Thank you for caring!**
